For the past 20+ years, I've been a successful nonprofit executive leading and managing organizations, developing and implementing strategic plans, collaborating with boards of directors and other colleagues, and raising needed funds. Recently, I encountered new and stressful on-the-job challenges; it was abundantly clear I needed help understanding, addressing, and transcending these issues. The New Mindset Academy is the solution. The Recalibrate program is what I need and want: supportive, state-of-the-art, revitalizing, thought-provoking, and informative. The system offers strategic, structured exercises tailored for me, and combines regular check-ins. With coaching, I am developing a new outlook, useful tools, and a vision for my professional future. Needless to say, I wholeheartedly recommend The New Mindset Academy.

I have been a corporate attorney for 22 years. My profession has changed dramatically in the last decade. Before I started the Recalibrate program, I was not clear as to the direction that I wanted to take my practice. With the increase of two new associates and a new partner, we were experiencing growing pains. After completing the program, I now have a whole new outlook on how I interact with my staff, and there has been a dramatic change. We now have a clear business map on how we will grow our business.

The Recalibrate program is exactly what most professionals need. It really helps you focus on what is holding you back from achieving your big goals. Plus, it gives you the framework to not only address those limiting beliefs but to build out a solid plan of action that puts you on the right path to achieving your goals. As someone who is always working on improving mindset and goal setting, I was able to uncover some gems from the Recalibrate course. I also appreciate the mini-meditation sessions throughout.

I worked with Eric Miller utilizing on-line coaching sessions and our sessions were very helpful to me. The Recalibrate Program is structured, organized, and provides steps to work towards the accomplishment of specific goals. For example, identification of core values that are of most importance to me. The Recalibrate Program also has regular check-in sessions that include exercises, discussions, and support. Additional resources are also available and are very helpful on a variety of topics, including in different formats like videos, books, and articles. I recommend The Recalibrate system as a smart way to move forward with life and business goals, identify values, and move to the next chapter.

I live in a rural community so access to professional coaching is limited to internet access. I had sought individual counseling several times, but therapists could not help me get to where I wanted to be. I had some big decisions to make and was torn. I needed to discuss some difficult topics with someone close to me. My goal from a coach was to find peace and calm in order to communicate effectively with this person. I got so much more! The New Mindset Academy courses taught me how to respond rather than react; how to develop tools to put myself in a positive position; how to identify what I truly want and need in this life; how to set and accomplish my goals. And so much more I don't have room to list it all. Time well spent and the best investment in yourself that you will ever make – and you are worth it!

Eric thank you for creating the Abundance Mindset in 12.2 minutes course. Like many others, I have tried out lots of abundance material and what I really liked about yours is that 1) it is easy to connect with as it 2) it is very informative, and most importantly 3) I have a visualization that is all mine and that works for me.

—Mary C. County Cork, Ireland

The two "simple" questions that open this course are a perfect introduction to topics we hear about all the time but never act on. And it's not necessarily about money. The promise that one can achieve positive change in 12.2 minutes offers a powerful incentive to start and this course delivers on that promise.

Eric's step-by-step Money Mindset Meditation was simple and clear. The examples of the learning styles were perfect to help me through the process. I was able to create a meditation that is purposeful and specific to my dreams and my goals. Thank you, Eric, for your life's purpose in helping others reach for their dreams.
